## **Preschool Substitute Teacher Job Description**

San Jose Christian School has a need for a qualified Preschool Substitute Teacher. Are you looking for an exciting teaching environment where collaboration and teamwork are valued? Are you passionate about early childhood education and creating rich learning environments for students? Are you a teacher who longs to be a part of a mission that is bigger than yourself? San Jose Christian School has a need for highly qualified, professional preschool teachers like you!

Ideal applicants will be fully qualified ECE teachers with experience. A bachelor's degree or certificate in early childhood education is preferred. We are looking for "jack of all trades" teachers who have a passion for working collaboratively with colleagues. The candidate should be a devoted Christian with a good understanding of the integration of faith into the curriculum and a real love for working with young people. SJCS is a school with a demanding operational tempo. The work is rigorous, but our teachers experience the fulfillment of providing a leading voice in the conversation of education . . . and doing it with colleagues who feel like family.

San Jose Christian School, founded in 1959, is located in the heart of Silicon Valley-an exciting hub of technological development and multicultural diversity. With amazing weather and Northern California's beautiful scenery, San Jose is a great place to live. The school offers a tight-knit community of staff and parents who care deeply about the mission of Christian education and what it means to train our students to be relevant citizens of Christ's Kingdom today. Currently, the school enrolls about 190 students in JK-8th grade and 85 students in preschool and infant care.
